Re. Waterway Marker Permit No. 3098

Dear Mr. Dauterman,

The above permit was issued in May of 2001 to the town of St. Germain for the placement of 20 hazard warning waterway markers in Little St. Germain lake. The markers have been maintained in accordance with the requirements of the permit by the Little St. Germain Lake P&R District under supervision of the town of St. Germain.

It has since come to my attention that three additional underwater hazards in the lake need to be marked. All have caused multiple incidents of boat motor damage during the past two summers. I have personally fielded several complaints from the boating public about the need to mark these areas.

Please find attached a revised version of the map originally submitted as support for permit 3098. The revision includes map references and GPS coordinates for marker location numbers 21, 22 and 23. Please consider this a request to either revise permit 3098 to include these three new areas or to issue a new permit to include all 23 locations.

Thank you for your help.

Ted Ritter, Secretary
